Transition NSCIB - EUCC

- > Official memo published on our DutchNCCA.nl website on 25 June
- > Shared memo by AIVD / NLNCSA & RDI / Dutch NCCA
- > Serves as clarification and guidance for the transition from NSCIB to EUCC

Dutch NCCA > EU Cybersecurity Certification > Common Criteria (EUCC)

Common Criteria (EUCC)

- > EUCC scheme documents
- > EUCC certificates
- > EUCC licensed bodies
- > Transition statement NSCIB - EUCC

The Common Criteria-based European Cybersecurity Certification Scheme (EUCC) is a certification scheme created under the [Cybersecurity Act \(CSA\)](#).

Transition NSCIB - EUCC

- › The Netherlands' intention is to:
 - motivate ITSEFs and CBs to obtain their EUCC licensing status as soon as possible
 - encourage sponsors to start their Common Criteria projects under EUCC as soon as possible
- › To support this, EUCC projects will be prioritised over NSCIB projects in our combined internal resource planning
- › This may lead to longer timelines for NSCIB projects

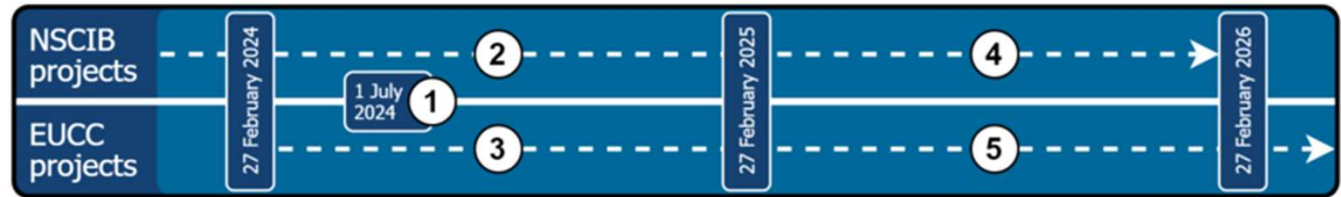

Transition NSCIB - EUCC

- › Practical transition implications:
 - Reading the actual memo is better than any summary I can give
 - Timeline, which covers:
 - Certification and re-certification under CCv3.1 & CC2022
 - Certification, re-certification and maintenance under NSCIB & EUCC
 - FAQs, which covers:
 - Conditions for NSCIB project resulting in an EUCC certificate
 - Conditions for EUCC project resulting in a NSCIB certificate
 - Implications of 'National CC schemes will cease to produce effects'

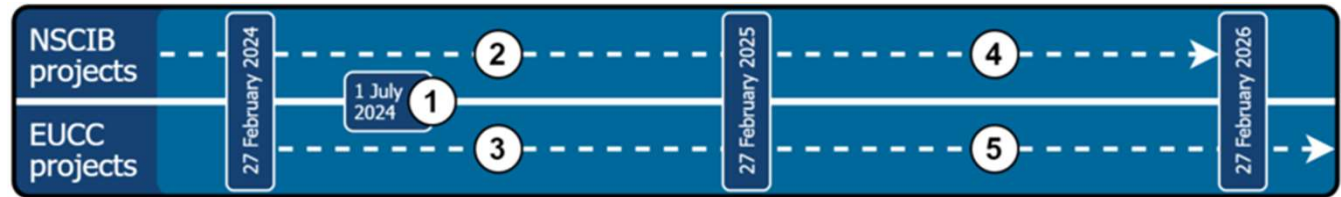

Timeline

- › Relevant dates from the [EUCC Implementing Regulation](#) are:
 - 27 February 2024 – Entry into force, start of accreditation & authorisation of CABS and EUCC applications;
 - 27 February 2025 – All articles fully apply, and EUCC certificates can be issued;
 - 27 February 2026 – National CC schemes cease to produce effects.

Timeline

> Timeline points

1. Regards the transition from CCv3.1 to CC2022
2. Regards NSCIB projects initiated between 27 February 2024 and 27 February 2025
3. Regards EUCC projects initiated between 27 February 2024 and 27 February 2025
4. Regards NSCIB projects initiated after 27 February 2025
5. Regards EUCC projects initiated after 27 February 2025

Thanks for your attention...
