EUCC scheme documents

This page provides an overview of all scheme documents that are applicable and mandatory to use for the EUCC scheme in the Netherlands.

Supporting EU documents (EUCC guidance, EUCC state-of-the-art and other documents) are published on 'The European Union Agency for Cybersecurity' (ENISA) ↗ Certification website.

NCCA processes (NP)

Overview of NCCA processes applicable for EUCC in the Netherlands:

NP001 – Licensing process	Proces describing how to get licensed to perform evaluation/certification activities under the Dutch NCCA.
NP002 – EUCC processes	Processes describing how to get a product certified and sustain its certified status under the EUCC for assurance level high at the Dutch NCCA.

NCCA instructions (NI)

Overview of NCCA instructions applicable for EUCC in the Netherlands:

NI001 – Information exchange	Instruction describing how to communicate with the Dutch NCCA using email and 'mijn RDI', the encryption of this communication and the allowed document formats.

NCCA templates (NT)

Overview of NCCA templates applicable for EUCC in the Netherlands:

NT001 – Licensing form	Form for submitting a licensing request through the 'Mijn RDI' portal.
NT003 – EUCC notification form	Form for submitting an EUCC notification through the 'Mijn RDI' portal.

Glossary of terms and abbreviations	⌄

1. Introduction

1.1 Background and purpose

The European Common Criteria scheme (EUCC) is the first cybersecurity certification scheme developed under the Cybersecurity Act (CSA). This scheme aims to serve as a successor to the current existing national schemes operating under the SOGIS MRA (Senior Officials Group on Information Systems Security Mutual Recognition Agreement) and covers the certification of ICT products, using the Common Criteria ISO/IEC 15408 standard.

File formats

› Following official recommendations by our government:

  – .html-files for publishing information

  – .xml-files for exchanging data

› Documents published in this way automatically comply with accessibility- and government design requirements

› Ensures:

  – Timeliness of updates

  – Minimizes time burden on NCCA-employees

Storing our html scheme documents

› Reference the URL

– We will provide stable links to v1.0, v2.0, etc. versions

› Save the webpage

› Print to pdf

Thanks for your attention...
